SUBJECT INDEX

Abuse, *see* Child abuse *and* Sexual abuse
Acquired immunodeficiency syndrome (AIDS)
  AIDS orphans in Africa (Soul Food column), 64-65
  mothers with, who "silence themselves," 89-95
  see also Human immunodeficiency virus
Act to Leave No Child Behind, 323-324
Adaptation, family
  to child's chronic illness, gender differences in, 257-269
  to childhood asthma, patterns of, 167-173
Adolescents
  design and evaluation of effective youth programs, 338-344
  Developmental-Systemic Family Therapy with Adolescents (Book Review), 66
  early adolescence, *see* Middle childhood
  health needs of girls in the juvenile justice system, 414-423
  privacy needs of in hospitals, 67-72
  with insulin-dependent diabetes mellitus, autonomy development in, 96-106
  with sickle cell disease, transfer from pediatric to adult care, 18-27
  with type 1 diabetes, psychosocial factors associated with metabolic control in, 28-37
Adult care
  transition from pediatric care to
    for adolescents with sickle cell disease, 18-27
Adult care (*Continued*)
    model for cystic fibrosis, 283-288
Advanced practice nurses
  advocacy and leadership when parental rights and child welfare collide, 49-58
  as team leader, for intervention in sexual abuse of children with disabilities, 363-367
Advocacy
  role of advanced practice nurse when parental rights and child welfare collide, 49-58
Africa
  plight of AIDS orphans in (Soul Food column), 64-65
African Americans
  children and the media (Child in the Community column), 309-310
  stress, worry, and support in black and white mothers of hospitalized critically ill infants, 82-88
AIDS, *see* Acquired immunodeficiency syndrome
American Academy of Pediatrics
  as advocate on behalf of children worldwide, 244
Animal-assisted therapy
  pet visitation on a pediatric cardiology inpatient unit, 354-362
Antibiotic resistance, 126-132
  interventions for lowering, 130-132
  magnitude of the problem, 126-127

Antibiotic resistance, 126-132 (*Continued*)
practice-based strategies for change, 128-130
reasons for continued widespread use, 127-128
Assessment skills
Pediatric Assessment: Pocket Guide Series (Book Review), 368
Asthma, childhood
impact of asthma risk factors on home management of in nonmetropolitan areas, 211-221
patterns of family adaptation to, 167-173
Autonomy
development of, in adolescents with insulin-dependent diabetes mellitus, 96-106
in healthy adolescents, 97-98

Behavior problems
and metabolic control in youth with type 1 diabetes, 28-37
Bicycle safety (Child in the Community column), 439-440
Blacks, *see* African Americans
Book and media reviews
Engle: *Pediatric Assessment: Pocket Guide Series*, 368
Fox: *Rookie Dad*, 228
Humes: *Baby ER*, 311-312
Lowenthal: *Abuse and Neglect: The Educator's Guide to the Identification and Prevention of Child Maltreatment*, 441
McCann: Threats in Schools: *A Practical Guide for Managing Violence*, 311
Seear: *Manual of Tropical Pediatrics*, 139
Werner-Wilson: *Developmental-Systemic Family Therapy with Adolescents*, 66
Brain-injured patients
spiritual care for, 380-385
Breast-feeding
in preterm twins, during hospital stay, 246-256
Burns
inpatient experiences of pediatric burn and trauma patients, 318-319
status report on childhood injury, 134

Canada
resources for childhood injury prevention in (Letter), 149
Cancer, childhood
caregiving demand in parents of children with, 201-210
psychosocial support for siblings of children with, 327-337
Cancer, childhood (*Continued*)
The Care of My Child with Cancer instrument, 201-210
Cardiology unit, pediatric inpatient
acceptability and impact of pet visitation on a, 354-362
Care of My Child with Cancer instrument
measuring caregiving demand in parents with, 201-210
Caregivers, primary
of HIV-infected children, child-rearing practices of, 289-296
see also Parents
Caregiving demand
in parents of children with cancer, new instrument for measurement of, 201-210
Case management
of transfer of adolescents with sickle cell disease from pediatric to adult care, 18-27
Central venous catheters
creating a venous access team for quality improvement in placement of, 450-455
Child abuse
Abuse and Neglect: The Educator's Guide to the Identification and Prevention of Child Maltreatment (Book Review), 441
communicating with a mother and child in suspected case of, 229-235
sexual abuse in children with disabilities, team model for intervention in, 363-367
Child Health Policy column
childhood injury, status report (Part 2), 133-136
burns, 134
firearm injuries, 134-135
poisoning, 133-134
lead poisoning, 59-61
reducing harmful exposures via Green Birthdays publication, 222-225
mercury, 222-223
polyvinyl chloride, 223-224
toxic chemicals, 224
role of pediatric nurses in wartime, 307-308
Child-rearing practices
of mothers of young children with congenital heart disease, 174-193
of primary caregivers of HIV-infected children, 289-296
see also Parenting
Childhood cancer, *see* Cancer, childhood
Chinese families, in the U.S.
with child with congenital heart disease, culturally sensitive care for, 157-166

Chronic illness
asthma, patterns of family adaptation to, 167-173
autonomy development in adolescents with diabetes, 96-106
during middle childhood, special needs of child with, 407-413
gender differences in adapting to a child's, 257-269
mothers with AIDS who "silence themselves," 89-95
psychosocial factors and metabolic control in youth with type 1 diabetes, 28-37
school attendance by medically fragile/technology-dependent children, benefits and risks of, 345-353
special needs parenting for children with, 424-438
stress and coping by parents of children with, compared with children with acute illness, 369-379
stress factors and coping strategies of parents with children on hemodialysis, 297-306
transfer of adolescents and young adults with sickle cell disease to adult care, 18-27
Chronic renal failure
stress factors and coping strategies of parents with children on hemodialysis, 297-306
Cigarette smoking, *see* Smoking
Clinical nurse specialist
role as advocate when parental rights and child welfare collide, 49-58
Cognitive development
school nurses' need for understanding stages of (Letter), 236-237
Collaboration
multisite research, systems approach, 38-48
Communication
with a mother and child in suspected case of child abuse, 229-235
Communities
design and evaluation of effective youth programs, 338-344
Community, The Child in (column)
bicycle safety, 439-440
children and the media, 308-309
play and physical activity, 137-138
preventing sudden infant death syndrome, 226-227
sexual abuse in children with disabilities, team model of intervention for, 363-367
terrorism, effect on children, 62-63
Congenital heart disease
infants with, culturally sensitive care for Chinese families in the U.S. with, 157-166
maternal factors related to parenting young children with, 174-183
Convention on Rights of the Child, 244-245
Coping strategies
comparison of, in parents of children with Duchenne muscular dystrophy vs. children with fever, 369
of parents of children on hemodialysis, 297-306
Critical care unit
inpatient experiences of pediatric burn and trauma patients in, 318-319
Critical illness
stress, worry, and support in black and white mothers of hospitalized infants with, 82-88
Cultural diversity
stress, worry, and support in black and white mothers of hospitalized critically ill infants, 82-88
Culturally sensitive care
of Chinese families in the U.S., using resiliency model for, 157-166
Cystic fibrosis
advanced practice nurse's role when parental rights and child welfare collide, 49-58
model for transition from pediatric to adult care, 283-288

Development, child
mother-toddler interaction and development of self-regulation, 184-200
Diabetes
autonomy development in adolescents with insulin-dependent, 96-106
psychosocial factors and level of metabolic control in youth with type 1, 28-37
self-esteem in Turkish diabetic children, 279-282
Disabilities
sexual abuse of children with, team model of intervention for, 363-367
Drug abuse
prenatal drug exposure and, ethical issues in research on (Letter), 150
Duchenne muscular dystropy
comparison of parental stress and coping strategies in, vs. parents of child with fever, 369-379
Dying children, *see* End-of-life care

Eating disorders
feeling states in an inpatient population with, 316-317
Edelman, Marian Wright
on Act to Leave No Child Behind, 323-324
Education, of providers
Green Birthdays publication on reducing harmful exposures, 222-225
on antibiotic resistance, 130-131
Education, of the public
on antibiotic resistance, 131
Education, patient
developmentally based medication instruction, 317-318
on antibiotic resistance, 131
Educators
Abuse and Neglect: The Educator's Guide to the Identification and Prevention of Child Maltreatment (Book Review), 441
views on school attendance for medically fragile/technology-dependent children, 345-353
Elementary school age children, *see* School-age children
End-of-life care
Society of Pediatric Nurses initiatives on, 457-460
Initiative for Pediatric Palliative Care, 459-460
Nursing Leadership Academy in End-of-Life Care, 458-459
Environmental hazards
lead poisoning, 59-61
reducing harmful exposures via Green Birthdays publication, 222-225
Erratum, 77
Ethical issues
in research on prenatal drug exposure (Letter), 150
Evidence-based practice
introduction to new JPN section on, 313-320
examples of in action, 315-319
format for submission of articles on, 315
process of, 313-315
meaning of spiritual care in pediatric setting, 380-385
us of, to create a venous access team, 450-455
Exercise
importance of children playing (Child in the Community column), 137-138
Expert witness
advanced practice nurse as, in termination of parental rights proceeding, 55-57

Families
adaptation to childhood asthma, patterns of, 167-173
maternal mental health and functioning of, during low birthweight infant's first year, 114-125
Family nursing
culturally sensitive care for Chinese families in U.S. with infant with congenital heart disease,157
of mothers with HIV/AIDS who "silence themselves" and their children, 89-95
psychosocial support for siblings of children with cancer, 327-337
Fathers
differences from mothers, in adapting to child's chronic illness, 257-269
patterns of adaptation to childhood asthma, 167-173
Rookie Dad (Book Review), 228
see also Parents
Females, *see* Girls *and* Mothers
Fever
comparison of parental stress and coping strategies with, vs. with child with Duchenne muscular dystrophy, 369-379
Firearm injuries
childhood, status report on, 134-135
Future, of nursing
Society for Pediatric Nursing's role in setting agenda for, 322-324

Gender differences
in adapting to a child's chronic illness, 257-269
Girls
in the juvenile justice system, meeting health needs of, 414-423
middle childhood in, overview of in societal context, 392-401
sexual development in "tweens," 402-406
Green Birthdays
publication on reducing harmful environmental exposures (Child Health Policy column), 222-225
Gunshot wounds
status report on childhood firearm injuries, 134-135

Health care environment
reducing harmful exposures in, via Green Birthdays publication, 222-225
mercury, 222-223
polyvinyl chloride, 223-224
toxic chemicals, 224

Health care services
for those with mental retardation, Surgeon General's report on (Editorial), 79-81
Healthy Children 2010
objectives of, and implications for pediatric nursing (Editorial), 153-156
Heart disease, *see* Congenital heart disease
Helmets, bicycle, 439
Hemodialysis
stress factors and coping strategies of parents with children on, 297-306
HIV, *see* Human immunodeficiency virus
Home care
for childhood asthma, impact of asthma risk factors on, 211-221
measuring caregiving demand in parents of children with cancer, 201-210
Hospitals
acceptability and impact of pet visitation on a pediatric cardiology inpatient unit, 354-363
breast-feeding preterm twins during stay in, 246-256
observed parental needs during their child's hospitalization, 140-146
privacy needs of adolescents in, 67-72
stress, worry, and support in black and white mothers of medically fragile infants in, 82-88
Human immunodeficiency virus (HIV)
children with, child-rearing practices of primary caregivers of, 289-296
mothers with, who "silence themselves," 89-95
see also Acquired immunodeficiency syndrome

Illegal drug use
ethical issues in research on prenatal drug exposure (Letter), 150
Immigrants
delivering culturally sensitive care to Chinese families, 157-166
Infants
low birthweight, maternal mental health and family functioning during first year with, 114-125
medically fragile hospitalized, perceptions of stress and support in black and white mothers of, 82-88
premature, music therapy for, 107-113
sudden infant death syndrome, prevention of (Child in the Community column), 226-227
Infants (*Continued*)
with congenital heart disease, culturally sensitive care for Chinese families in U.S. with, 157-166
Initiative for Pediatric Palliative Care, 459-460
Injury, childhood
nurses' role in prevention of (Letter), 149
status report on, 133-136
burns, 134
firearm injuries, 13135
poisoning, 133-134
INSIGHTS intervention
transforming temperament profile statistics into puppets and other media, 11-17
Insulin-dependent diabetes mellitus, *see* Diabetes
International Child Health Nursing Alliance, 244
comparison of parental stress and coping strategies in acute and chronic illness(from Taiwan), 369-379
International pediatric nursing (by authors from other countries)
breast-feeding in preterm twins (from Sweden), 246-256
child-rearing practices of primary caregivers of HIV-infected children (from Thailand), 289-296
gender differences in adapting to child's chronic illness (from Israel), 257-269
importance of international partnerships (Editorial), 243-245
model for transition from pediatric to adult care in cystic fibrosis (from the UK), 283-288
observed parental needs during their child's hospitalization (from Sweden), 140-148
Parent-Staff Interaction Model of Pediatric Care (from Australia), 442-449
parental views on participation in their child's surgical pain relief (from Finland), 270-278
privacy needs of adolescents in hospitals (from Australia), 67-72
self-esteem in Turkish diabetic children (from Turkey), 279-282
stress factors and coping strategies of parents of children on hemodialysis (from Turkey), 297-306
suspected child abuse, dealing with child and mother (from Northern Ireland), 229-235

Journal of Pediatric Nursing
partnership with Society of Pediatric Nurses (Editorial), 1-2
thank you to reviewers, editorial board, and column editors, 389-390

Justice system, *see* Juvenile justice system
Juvenile justice system
health care for girls in, 414-423

Lead poisoning
silent epidemic, 59-61
Leadership
role of advanced practice nurse when parental rights and child welfare collide, 49-58
Legal proceedings
parental rights vs. child welfare, advanced practice nurse's role as advocate in, 49-58
testimony as expert witness, 55-57
Legal rights
of subjects in research on prenatal drug exposure (Letter), 150
Low birthweight infants
maternal mental health and family functioning during first year of life, 114-125
see also Premature infants

Maternal factors, *see under* Mothers
Maternal health, *see* Mothers
Media
effect on children (Child in the Community column), 309-310
Medically fragile/technology dependent children
perceptions of risks and benefits of school attendance by, 345-353
Medication instructions
for children, developmentally based, 317-318
Mental health
maternal, during low birthweight infant's first year of life, 114-125
Mental illness
parents with, role of advanced practice nurse when parental rights and child welfare collide, 49-58
Mental retardation
parents with, advanced practice nurse's role when parental rights and child welfare collide, 49-58
Surgeon General's report on health care needs for individuals with (Editorial), 79-81
Mercury
reducing harmful exposures to, in Green Birthdays publication, 222-223
Meta-analysis
of efficacy of music therapy for premature infants, 107-113
Metabolic control
psychosocial factors and, in youth with type 1 diabetes, 28-37
Middle childhood
female, overview of in societal context, 392-401
health issues and trends, 394
health needs and perceptions of "tweens," 395-396
health promotion in, 397-399
health research in, 396-397
health risks, 395
girls in the juvenile justice system, health of, 414-423
health promotion in the "tween" years (Guest Editorial), 391
sexual development of female "tweens," 402-406
gendered social construct of, 403-404
practice issues, 404-405
special needs of chronically ill child in, stress-coping paradigm for, 407-413
conceptual framework, 407-411
implications for nurses, 411-412
Models, of nursing care
background, 442
cultural influences on, 444-445
in pediatric nursing, 443
nursing models, 442-443
parent participation models, 444
Parent-Staff Interaction Model of Pediatric Care, 446-448
transcultural, 445-446
Mothers
as subjects in research on prenatal drug exposure, ethical issues in (Letter), 150
breast-feeding in preterm twins during hospital stay, 246-256
communicating with, in suspected child abuse, 229-235
differences from fathers, in adapting to child's chronic illness, 257-269
interaction with toddlers, and development of self-regulation, 184-200
mental health of, and family functioning during low birthweight infant's first year, 114-125
of hospitalized medically fragile infants, perceptions of stress and support in black and white, 82-88
parenting young children with congenital heart disease, 174-183
patterns of adaptation to childhood asthma, 167-173
temperament profiles of school-age children as reported by, 3-10
with HIV/AIDS, who "silence themselves," 89-95
see also Parents

Multisite research
systems approach to, 38-48
Music therapy
efficacy of, for premature infants, 107-113

Neonatal intensive care unit
Baby ER (Book Review), 311-312
music therapy in, efficacy of, 107-113
Nonmetropolitan areas, *see* Rural areas *and* Towns, small
Normalization process
and maternal parenting of young children with congenital heart disease, 174-183
